Councillor Lloyd's Column

(The views expressed within this article are the personal opinions of Councillor Bruce Lloyd)

Our long sought summer is turning out to be a good one after all! Our mill churns away and the tourists are arriving to enjoy our amenities, including our little tourist centre that our student Erika MacKenzie is manning so well for us. Our other two students, Braiden Lopinys and Chellsea Landy as most will know, are tidying up the town really well with weed-eaters, shovels, broom and you name it. Don't forget to tell them how much it's appreciated.

It was good to see earth-moving machines at the new resort site and we are excited to see what will be built. The village has obtained more land to ensure green space further on along the seawalk thus sealing the beautiful nature of our southern approach.

The recreation department successfully hosted 2 weeks of summer camp that was well attended and enjoyed by all. The soccer camp wasn't as well attended as in the past, but it was much appreciated nevertheless by children and parents alike. Now it is time to settle into August and look forward to the Labour Day picnic which is when the kids get to do the old fashioned sack races, foot races and the like.

I would remind people that littering has a remedy. Teaching children, (and adults) not to litter is part of it. But as one walks he or she should make a point of picking up the odd piece or so to contribute to the overall cleanliness of our community. If enough people do such it actually in large part puts an end to the problem.

Bruce Lundin is taking it upon himself to do some work towards the restoration of the old cemetery above the mill site. If you are interested in helping give him a call and discuss his plans with him. It is a lovely place and truly fulfills what one writer wrote a few years ago - "A place where Pittsburgh meets Shangri-La!"

At this point I would like to encourage once again people to consider volunteering with our local fire department. We are always in need of recruits to share the workload. The fine students (Tyler Cheetham, Jamie Spring, Amanda Behan, and Brittany Hovde) that have joined the force to bolster the department over the summer will be leaving in late August and thus the need for more folk to protect our homes and businesses. Please consider this appeal.

Council continues to deal with a number of interesting and mundane issues. The Mayor has indicated his intention not to pursue re-election in November, and this we are looking for someone

who is able to dedicate several hours per week, ideally - retired. If you have experience of leadership, knowledge of Roberts Rule of Order and honest financial character speak to one of us. The job involves a lot and yet it can be successfully farmed out to each Councillor to make it more manageable. But please, speaking for myself, if you have not experienced like manner of position or gone through the role of Councillor or it's equivalent consider seeking election to council at the Councillor level. Let us hope that a new council is installed with a wise and able Mayor in place to orchestrate them in humble and forthright manner. Enjoy Summer!
